770 Students Are Enrolled at W. T.

Decreases of 20% Over Total Attendance of Last Year

770 students were enrolled in the summer session of W. T. yesterday according to the records of Travis Shaw, business manager.

This number is a decrease of less than 20% over the same time of last summer's session. Reports from other colleges indicate that most of the colleges have lost from 25% to 30% over the attendance of last year. The decline in attendance is easily attributed to the fact that no appropriation was made for the summer sessions until the last week of the legislature; the fact that so many of the public schools did not pay their teachers in full for the past year's work; and the general economic condition confronting every section of the state.

Work in all departments of W. T. is progressing nicely this week following the organization period of the opening week.

Literary Lectures and Book Reviews Features at W. T.

Nine-thirty on Friday promises to be a popular hour at the College this summer, for at that time a series of literary lectures and book reviews will be given. The time devoted to each will be one-half hour and students and interested townspeople are invited to attend. Room 17 in the Administration Building, one of the largest and most pleasant on the campus, has been selected for this purpose.

These programs have been planned by the English department and Mrs. Geraldine Green will begin the series Friday, June 16, with a review of Pearl Buck's "Good Earth."

Professor S. H. Condon will review Dr. Glenn Frank's "Thunder Before Dawn" the following week, and on June 30 Mrs. T. V. Reeves will talk on Lewis Browne's "Blessed Spinoza." Dr. B. F. Fronabarger will close the first term series on July 7, his subject being "Magazine Life." He will show some of the charges and movements which are discernible in the magazine field today.

These lectures, open to everyone, follow an experiment which proved very successful last summer. The room where the lectures were given last summer was always filled to capacity and students and faculty members were very grateful for the opportunity to acquaint themselves with more books and authors than their limited leisure would allow them to read.

Gymnasium Name Will Honor Passing of S. D. Burton

There is a large possibility that the men's gymnasium will be known hereafter as "Burton Gymnasium." The Athletic Committee of the College, composed of Mr. Shirley, Mr. Terrill, Mr. Lockhart, Mr. McCarter, Mr. Jones, Mr. Savage and Mr. Shaw, has recommended to the faculty that the State Teachers College Board of Regents be requested to use this name. The faculty unanimously endorsed the suggestion of the committee.

If this meets the approval of the Regents when they meet late in the summer, "Burton Gymnasium" will become a suitable memorial to the man who spent so much of his time in the building training young men who in turn brought many friends to the College through their fine playing and sportsmanship.

CITY EQUALIZATION BOARD RAISES RATES ON FIFTY

The board of equalization for the city of Canyon has notified 50 property owners to appear on June 20th regarding the valuation placed upon their property.

The board is composed of G. G. Foster, Grady Oldham and J. C. Barnett.

Miss Thelma Brummett has had as her guest the past two weeks, Miss Margaret Stein of New York City. They will leave the last of this week with Miss Lois Goodrich for New York to attend the Girls' Camp in which they have been counsellors for several years.

Mr. and Mrs. J. L. McCarty of Dalhart were here Tuesday on their return from the Texas Press Association meeting at Houston.

Civil War Document of J. C. Pipkin Is Placed in Museum

The name "John Calvin Pipkin" might not immediately call to the mind of Canyon people "Uncle Jack" Pipkin, but this is the name which appears on a document in the Panhandle Plains Historical Museum in which is recited Mr. Pipkin's "solemn obligation not to take up arms against the government of the United States." It is dated at Greensboro, North Carolina, May 3, 1865.

Mr. Pipkin was then only eighteen years old, for he had enlisted under the Stars and Bars at the age of sixteen; he, with his father and older brothers, was in Anderson's Light Battery which opposed General Sherman until General Johnston's surrender in April, 1865.

Following his discharge, Mr. Pipkin returned to his home in Hawkinsville, Pulaski County, Georgia, but deserters, carpet baggers, scalawags and bewildered freedmen made conditions unpromising there and eighteen months later he began his trek westward. He and his brother came to Smith County, Texas, where he met and married Elissa Ann Davis. He moved soon to Ennis, Ellis county, near Dallas, but after another fifteen or sixteen years the wanderlust of the pioneer seized him again and he came to Plainview to engage in the mercantile and stock business. Nine years later he came to Canyon; he has resided here for thirty three years, seeing and participating in all the changes which have taken place while Canyon has developed from a tiny, bare, windswept hamlet to a beautiful, progressive little city. Mr. Pipkin is now eighty-six years old, and he and Mrs. Pipkin have been married sixty-six years.

Credit Offered In Correspondence For the Summer

Students who are not in college this summer are being given an opportunity to take work by correspondence. This is the first summer that this type of work has been opened for summer enrollments. This new plan is especially helpful to those students who have incomplete courses which they wish to finish before the college adopts the semester plan in the fall.

Courses are offered in the departments of agriculture, chemistry, commerce, education, English, geography, government, economics, history, Latin, mathematics, music, physics, sociology and Spanish. These are regular college courses, equivalent to the courses of the same number taken in residence, and are given the same credit.

These will be open also to students who are in college the first six weeks but not the last.

Bulletins of courses and other information about this type of work may be gotten in the Bureau of Public Service Office.

Dr. J. A. Hill Called to Austin As to Public Work

Dr. J. A. Hill was called to Austin Sunday to confer with state officials regarding public work which will be undertaken in Texas under the new appropriations bill passed by Congress.

Dr. Hill conferred with Mayor C. R. Burrow regarding projects which may be undertaken in Randall county under the terms of the bill. So far it is uncertain as to the type of work which may be accomplished under this bill.

Dr. Hill was among the many prominent citizens of Texas who were called in to confer regarding this money.

SOCIAL FOR METHODIST STUDENTS BEFORE LEAGUE

All Methodist students and their friends are invited to attend a social hour preceding the league meeting in Fellowship Hall at the Methodist Church, at 7:00 o'clock, Sunday evening.

Mrs. J. H. Cox, Jr. and son returned Friday from a visit with her parents at Fort Worth. Jack Neal Jennings is visiting in Lorenzo with Mr. and Mrs. Cecil Hagood.

WORK CARRIED ON ALL GRADES TRAINING DEPT.

Special Features Are Announced for the Summer Quarter

200 ARE ENROLLED

19 Towns Sends Students For the Higher Grades

The Training School of the College has an enrollment of approximately 200 boys and girls this summer. The range in grade from the first through the eleventh. Professor F. E. Savage, superintendent, stated yesterday that a limited number of children could still be accepted in the grades; the summer session is not divided into two terms in the demonstration school and late enrollments will be accepted only in a few of the grades.

The high school division has an especially interesting group of students, coming from nineteen different towns. They are Lubbock, Amarillo, Tulla, Happy, Kerens, Elk City, Oklahoma, Wellington, New Castle, Slaton, Grow, Hitchland, Cameron, New Mexico, Dawn, White Deer, Tascosa, Weinert, Borger, Weslaco, and Corsicana.

With few exceptions, the work of the demonstration school is being carried on by the same faculty in charge during the long session. Mrs. T. H. McDonald is absent this summer, as it has not been customary for several summers to give Spanish.

In the grades Miss Jean Moore is on leave and her work is in charge of Mrs. Roy Wallrabenstein who received her Master's Degree from the College this spring. Previous to her coming to Canyon, Mrs. Wallrabenstein graduated from Fairmont State Teachers College, Fairmont, West Virginia. Subsequently she made an unusual record in public work in her home state.

Miss Ruth Lowes has been shifted from kindergarten to first grade work, taking the place which during the past year was filled by Miss Gladys Williams.

Special Features Many of the clubs and other organizations which function in the training school during the long session are suspended during the summer in order to conserve the energy of the pupils during the hot months and give them more hours to spend in whatever employment they have in their homes. The chorus, under the direction of Miss Ada Clark is working regularly and will probably give one (Continued on last page)

Will Let Contract to Complete Highway to the South

The State Highway Commission has asked for bids to give a double asphalt treatment to complete the highway from Canyon to Happy.

The roadbed was given an oil topping this spring to hold the surface until such a time as the state could complete the topping.

It is reported that another treatment of asphalt may be added to the highway west during the summer, but no authority from the state has been given for this work.

DISPLAY CASES FROM SENIOR CLASS TO MUSEUM

Three handsome display cases have been placed in the Panhandle-Plains Museum this week. These are the gift of the class of 1933 of the West Texas State Teachers College. The cases are dustproof, made with plate glass coverings, and so substantially built that they can be used for any purpose for which they might be needed. One of them now contains a miscellaneous collection, one a part of the famous Baxter collection, and the third is yet to be arranged by Professor L. F. Sheffy. Keith Guthrie of Hereford was president of the class which made this gift to the museum.

Men Will Move Sunday to Park

Water Wells Being Sunk to Care for 1,000 Workmen

Several hundred men from Fort Sill will move to the Palo Duro canyon next Sunday if an adequate water supply is available by that time.

Two well drilling machines are running day and night in order to secure the necessary water supply, and from indications the camp sites will be in readiness by that time.

Rapid developments have been made during the past week. Word was received here Saturday morning that wells must be provided before the men could be moved to start work on the projects which had been designated by order of President Roosevelt. Conferences were held between Canyon and Amarillo citizens, joined by the Randall County Commissioners, and the City Commission of Canyon. Well drilling machines were ordered to the selected camp sites, and authorized to run day and night until an adequate water supply was available.

Five army officers arrived Sunday in Amarillo, and were met by members of the Amarillo committee, Judge S. B. Orton and J. B. Elliston. An examination of the Palo Duro clearly showed to the officers that plans must be changed in the location of the camps. It is likely now that two camps will be located east of Canyon, and two across the Palo Duro, south of Washburn and Claude in order that the best progress may be made with the construction work. The officers state that 1,000 men are conditioned and ready to move to the five camp sites which have been designated in the Palo Duro. But the water supply must be determined before the men may be moved.

J. B. Elliston, Col. Oscar Seaward, Howard Trigg, and Capt. E. M. Owens of Galveston who arrived as a special engineer from the state water board, are in constant communication with D. E. Colp of the State Park Board, and other officials now in charge of the Park project.

Requisitions have been made for the necessary trucks, tools and other equipment which will be necessary for the five camps.

The officers who came to look over the Palo Duro were Major J. L. Dunn, Capt. T. E. Roderick, Capt. W. L. Coulter, Capt. D. R. Alfante, and Capt. F. H. Barnhart. They were of the opinion that work for several years would be necessary to make the Palo Duro into the kind of a park that the government would like to have.

The first project will be to construct a highway across the canyon. Each camp is allotted 200 men and \$18,000 for materials.

Every possible assistance is being given by local citizens in order that the work may be rushed. About \$500 daily will be spent for food and supplies in the various camps, and the monthly pay rolls will amount to \$50,000. It is estimated that much of this money will come to Canyon business houses.

Marie Stallings Is Winner in County Bed Room Contest

Miss Marie Stallings of the Lakeside Girls 4-H Club has been announced winner in the Bedroom Contest, with Miss Elsie Bauer of the Johnson Club taking second place. Bedrooms were studied in the club at several meetings, but the actual work has been done by the girls themselves in the past month.

The following were the points on which the bedrooms were scored: sanitation, lighting, interior finish, furnishings, storage for clothing, general appearance, and suitability to needs of particular girl. Mrs. L. F. Sheffy did the judging.

An attractive color scheme of cream and green was used in making the improvements in the prize bedroom at a total cost of \$8.50. Miss Stallings will be sent to the Short Course to be held at College Station in July, as the prize for winning the contest.

INFANT IS STILL-BORN

SERVICES HELD DEDICATED TO SAM D. BURTON

Many Speak Tuesday at the Special Chapel Program at W. T.

"T" MEN IN TALKS

Funeral Services of S. D. Burton Are Held Friday

Honoring the memory of Coach S. D. Burton, the students and faculty of the College met in a special service Tuesday morning. Dean R. P. Jarrett presided in the absence of President Hill.

Speakers for the occasion were Ben Guili, representing the students, Pat Gerald, the Buffalo T-Club, Mitchell Jones, the Physical Education Department, and Registrar D. A. Shirley, the faculty.

At the close of the tributes, Mr. Wallace R. Clark sang an arrangement of Robert Louis Stevenson's "Requiem."

All of the speakers emphasized the qualities of Coach Burton which made him a valued member of the college faculty and a loved friend of those young men who came to know him in college and looked to him for advice and help after they went into coaching positions of their own.

The speakers agreed that the outstanding quality of the "Big Coach" was his sincerity and absolute honesty. That added to these there was a genuine friendliness which showed itself in quiet, sustained helpfulness, marked by patience, frankness, and an absence of impulsive judgment.

Coach Burton's love of the beautiful as shown by his interest in music and art were mentioned, together with his kindly, but keen sense of humor. Mr. Jones, who was very closely associated with Mr. Burton in his office, told of the mottoes which appeared above his desk, and were daily reminders to his men that how they played the game was of greater significance than the figures on the scoreboard at its completion.

The memorial program was planned by R. A. Terrill, T. B. McCarter and Travis Shaw.

Funeral Is Held

The funeral services for S. D. Burton were held at the Methodist Church.

Active and honorary pall bearers were members of the present Buffalo athletic teams, and men who have been prominent as athletes during the past 12 years while Mr. Burton was head of the Physical Education department of W. T.

Dr. J. A. Hill spoke of the wonderful personality of Coach Burton and his influences upon the lives of the men who had worked with him.

Rev. C. E. Jameson of Shamrock preached the funeral sermon.

Assisting in the services were Rev. C. W. Foote, Rev. F. T. Charlton, and Rev. J. H. Hicks.

Company F Has Highest Grade In Inspection

Capt. William E. Lockhart is in receipt of the final grades given his National Guard Company, Co. F, 142nd Inf., at the recent Federal inspection. The Company received a rating of "S-Plus" which now places the Canyon National Guardsmen in the highest class. This is the best showing that Company F has ever made. Three streamers will be given to the Company at the summer encampment—a blue streamer for the high grade, on inspection, a white streamer for 100% attendance, and a red streamer for qualifying over 35% of the men in the company in rifle shooting.

Company F is going to make a stronger effort to win the Rifle Trophy this summer. The year's rifle shooting has developed some unusually good marksmen. Among these are Lt. William T. Simmons, Sgt. Howard T. Patchelder, and Private Erwin W. Porter. All of these have qualified as "Expert Riflemen" and with Lt. Thomas H. McDonald and Capt. Lockhart a rather strong rifle team can be placed in competition for the Hulen Trophy. Work in the Company for the next two months will be centered around preparations for the summer encampment, August 5 to 17.

Girl Scouting In Canyon Discussed at Rotary Lunch

The Community Service Committee, Burt Newlin, chairman, had charge of the program at the Rotary luncheon Tuesday, discussing the Girl Scout movement in Canyon.

The club will meet next Tuesday with the Westside Home Demonstration Club at the home of Mrs. A. N. Burgan. An invitation was received by the Rotarians to meet soon with the Lakeside Home Demonstration Club at the home of Mrs. Tom Lair.

The birthdays of Pinky Hand and Harris M. Cook were recognized by the club.

Visitors present Tuesday were George Lindsay and Dr. B. E. Masters of Amarillo.

Miss Lois Goodrich, Miss Thelma Brummett and Miss Clarice Matthews were introduced by Mr. Newlin and talked on the Scout movement in Canyon.

Miss Goodrich has had charge of the work in the public schools for the past two years, having 46 girls in the Scout Troops. She explained the purpose of scouting, the methods and the programs being put over. 40 of the girls were taken to Camp Kiwanis north of Amarillo at the close of school for four days, the expenses being paid with money raised by the girls since last September. Ten of the scouts sang a group of songs from the 150 songs which all of the girls have memorized.

Miss Brummett explained the work of The Wranglers at the College. The movement is started to train scout leaders among the students and college women. The construction building for the museum was purchased and will be worked over into a scouting lodge, where all meetings will be held.

An advisory committee is composed of D. A. Shirley, L. S. Baker, S. H. Condon, Mrs. Tom Knighton, and Mrs. Bill Smith.

Miss Matthews told of the benefits she had derived from the Wrangler work, and the benefit that she had heard others had derived.

Two More Teachers Are Elected Members of Faculty

Supt. Irby Carruth states that two more teachers have been elected to the faculty of the Canyon public schools.

Milt Sanders was elected teacher of history in the grades. He is a degree graduate of W. T., and has been a successful teacher in the Slaton public schools the past two years.

Miss Gwendolyn Black has been elected teacher of the third grade. She will receive her degree from W. T. at the close of the summer quarter.

TWO EX-SERVICE MEN MAY ENTER REFORESTATION

C. H. Jarrett, Home Service secretary of the Red Cross, has received notice that two ex-service men from Randall county will be accepted for reforestation work. Enlistment started in Texas Monday and should close on June 22. 655 men will be accepted from Texas.

After enlisting, the men will stand physical examination at the Amarillo headquarters of the Army, and will likely be called upon to report to Fort Sill, Oklahoma, where the other Panhandle boys are in training.

Mr. Jarrett is asked to report the names of such ex-service men as will enter this service.

SHOWER MONDAY COOLS ATMOSPHERE ON PLAINS

A rain of .25 inch fell in Canyon Monday afternoon. Little rain fell north of Canyon, but a good rain is reported over the south part of the county.

The great benefit derived from the rain was cooling the temperature which ran high during the past week.

Dr. Fred Oberst and family of Iowa City, Iowa, are visiting at the parental E. A. Oberst home. Dr. Oberst is doing research work in chemistry in the hospital connected with the University of Iowa.

A TRIBUTE TO SAM BURTON

(By Jack Woodward in the Plain-view Evening Herald, who has refereed many athletic contests in which the Buffaloes have participated.)

Grief over the passing of S. D. Burton, director of athletics at the West Texas State Teachers College is not confined to those closely associated with the Canyon institution. During his twelve years' association with the college, he built up a reputation for clean athletics and a high quality of sportsmanship that will live for many years in the minds of West Texans regardless of their affiliation with the school he represented.

Although he was closely associated with many sports at W. T. S. T. C., his chief renown as a coach came from the splendid basketball teams which he developed. His teams of the past two years were listed among the best in the world.

How did he do it? The question was asked by many who knew the slow, even-tempered coach and marveled at the results he obtained. The answer may lie in the careful personal attention he gave to his boys and the obvious desire to build character first and basketball teams as a secondary consideration. His plan seemed to work.

This writer had the privilege of being in close contact with Coach Burton and his basketball teams for a number of years and had an opportunity to see many inside contacts between mentor and pupil which were denied the casual observer.

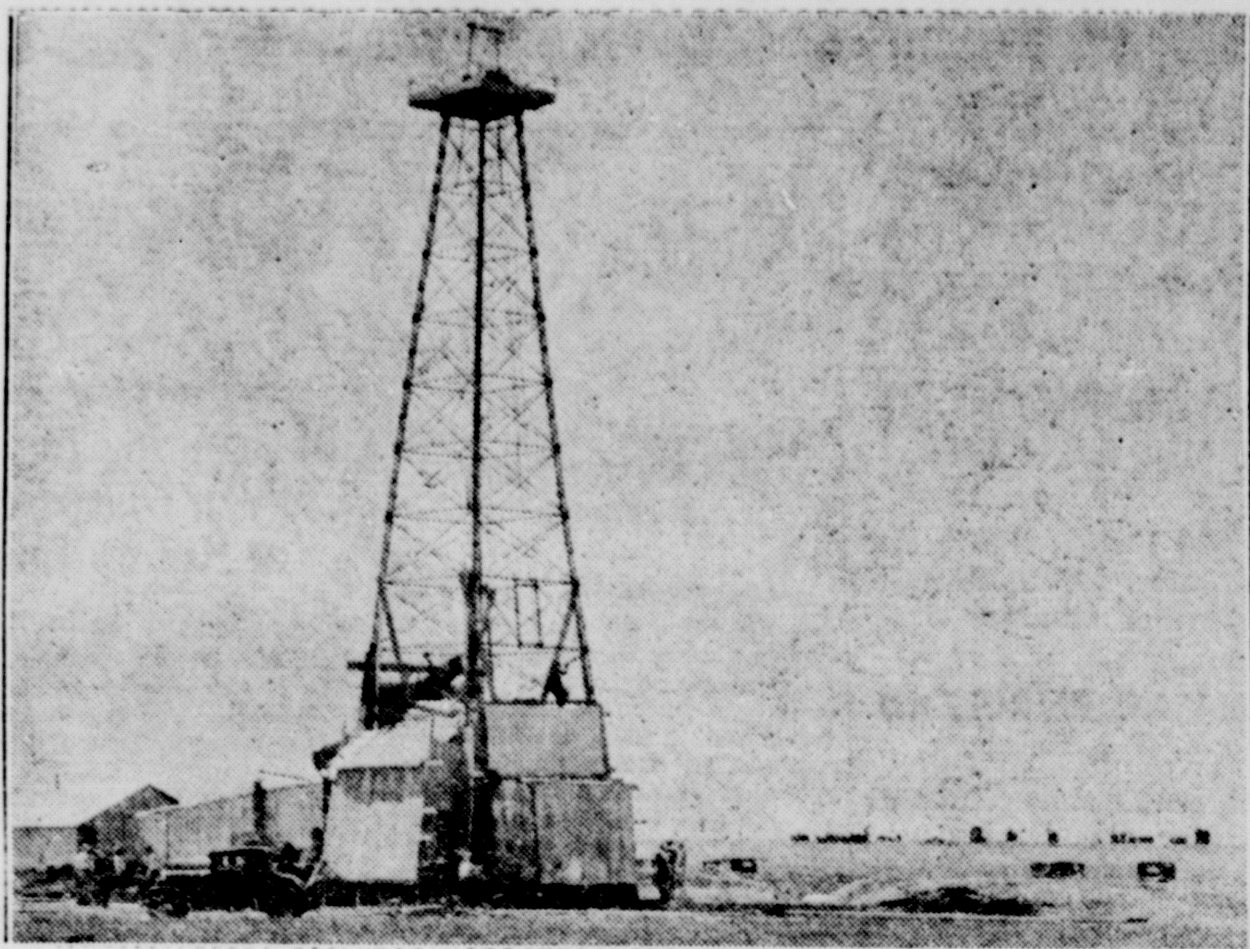

It appeared to make no difference to "Sad Sam" whether his boys won or lost. If the boys "played the game" they were praised, if not they were berated, regardless of the outcome. He offered no alibi for losses, took no credit for victories. When the breaks of the game or decisions of officials went against him he made no complaint. He appeared interested solely in what his boys were doing on the floor. He would not tolerate listless play or unsportsmanlike conduct. He had an intense will to win, of course, but the victory must be fairly fought and honestly won. He built character, sportsmanship, honor—and these qualities pointed the way to victory.

The Claude News devotes much of its last week's issue to complaining about the Palo Duro Park situation because the Goodnight Trail was not being pushed to the foreground. Mr. Waggoner wrote four articles of complaint for his paper, seeking to stir up prejudice in Claude without having stopped to investigate. In the first place, the Goodnight Trail is not abandoned. There is only \$72,000 available for this project, and it would likely cost several millions to build the Goodnight Trail. In the second place, Claude has not been ignored, as the committee doing the work has had to change its plans to suit the demands of the state and federal governments, and to do the things which were possible instead of undertaking the impossible. If Mr. Waggoner had investigated he would have found that citizens of Canyon and Amarillo were putting up the money to build the first camp site, which is on the Claude side of the Palo Duro. If Mr. Waggoner had stopped to think before starting to condemn the whole project purely from a selfish standpoint, he would have realized that this great project, while the dream of 30 years, was entirely without scientific plans, and these plans had to be worked out as the necessity developed. If Mr. Waggoner will put some of his money and time in the project, as the rest of us are doing, he will find that the very best is being done, and that no citizen has a right to complain of the progress being made. If the present project is a success, the federal government will never stop until the entire Palo Duro canyon is a part of the federal park system. They absolutely guarantee that this shall never be accomplished if local citizens get out their little hammers and start to knock instead of getting in and working and boosting for the project. We are certain that the sentiment spread over The Claude News does not express the sentiment of the people of Armstrong county who have undertaken to find out the facts.

Reports from Austin indicate that prospective candidates are jockeying for state races next year. Lee Satterwhite, who has represented three different districts and was Speaker of the House while representative from this district, will likely run from a fourth district, having moved to Austin. He will probably establish a record that no other man will ever excel should he be elected. Senator Walter Wood of Houston will run for lieutenant governor. Lieutenant Governor Edgar Witt is out for Governor on the platform approving the beer amendment in August and repeal of the 18th amendment. Attorney Jimmie Allred, a dry, and Speaker Coke Stevenson, a wet, are also likely to be in the race. It is very likely that this will be one campaign which will not see the usual Ferguson participation, although it is certain that ex-governor Jim will be active in some camp. Ex-Speaker Fred Minor of Denton and Senator Walter Woodward are likely candidates for attorney general. Thus will be seen that 12 months before the campaign an abundance of candidates are being groomed for the race. Prohibition will be injected in the race. Should the beer amendment be carried this year, the State Democratic committee, wet by a large majority, will place the referendum proposal on the primary ballot next year, and candidates will be required to answer wet or dry. A hot fight is in the making.

The News is not fooled about the magnitude of the prohibition fight to be staged in Texas on August 26th. We are not expecting a walk

TEST WELL BEING DRILLED IN COUNTY

Here is a wildcat sixteen miles northeast of Canyon, being drilled by Woolsey and Devore. Location is northeast quarter of section 85, block 2, AB&M Survey, Randall County, on the Oxnard land. It is in about the center of a 20,000 acre block owned by the operators and on a structure indicated by several geological reports in which was used the latest type of geological instruments. The test is well equipped to go to a depth of 6,500 feet if necessary, and it is now drilling ahead night and day. Due to engine trouble progress was slow at the start but it is believed this has been eliminated with better speed in the future. Drilling is now something below 300 feet.

over for the dries, for the 18th amendment was not carried in Texas by such a large majority. We are mindful of the fact that the people of the United States have the greatest admiration and respect for President Roosevelt, and are following him with implicit child-like trust in his campaign for national recovery from economic distress. With all of this leadership, we are still trusting that there are a sufficient number in Texas who recall the terrible curse of the saloon days, and its attending evils that they shall not permit the legalizing of beer in Texas. A railroad will not allow a drunken engineer to drive a train; yet the people of Texas are called upon to legalize the sale of beer, and make it available in every block of every town in Texas, in spite of the dangers attending drunken drivers of automobiles who will have a thousand to one chance to kill more people than a drunken railroad engineer. Personally the News man is not afraid of the stuff because we think we have enough sense to leave it alone; but we do not fancy risking our neck to the mercy of men whose faculties have been deadened through the use of alcohol.

There is no question about the advisability of buying now; that is, if you have the money with which to buy. There is not a line of business in which prices have not advanced. No one questions the fact that prices have been too low; even the closest buyers, the stingiest of us all, were convinced that prices have been entirely too low. Now that prices are advancing, there is no telling where they will go. No one expects them to go to the boom day level—that would be absurd—but the fact that they are climbing and climbing daily should be an incentive for a revival of buying over the country.

Code of Ethics for Texas Teachers

(Printed by Request)
To teach the children of America aright is to guarantee the happiness of the people and the successful perpetuity of our government. This important task has been entrusted to the public free school system with its thousands of teachers. Those who engage in this great service must not only be trained technically and professionally for their duties, but they must possess those qualities of heart and mind that will insure that they themselves are worthy and patriotic citizens whose leadership will lift the level of human ideals and achievements a little higher than they found them.
Having dedicated my life to service in this vocation, I recognize

that it is my duty as a teacher:
1st. To regard my profession as worthy and dignified, and as affording me an unusual opportunity to serve the present and future generations.
2nd. To work continuously to elevate the standards of the teaching profession, and to affiliate actively with the professional organizations thereof—local, state and national.
3rd. To improve myself physically, mentally, morally, and professionally so that I may give the very best service possible to the boyhood and girlhood of America.
4th. To acknowledge that my first and highest obligations are due not to myself or to the school officials, but to those who are being taught; and to agree that any doubtful ethical procedure be settled on the basis of its contribution to this primary obligation.
5th. To take a personal interest in the progress of each pupil and seek to know his parents and to understand his home environment.
6th. To regard it as a binding obligation to go before every class prepared in subject matter and with definite objectives laid out for the guidance of my pupils in profitable work.
7th. To refuse to take advantage of my position as a teacher to make a financial profit on sales of any kind whatsoever, or to coach pupils of my own classes for pay, without special permission of school authorities.
8th. To be loyal to my supervisors and fellow teachers so long as I remain a member of any organizations with them.
9th. To give the fullest co-operation to those in positions of administration, and to extend to them the benefit of doubt in matters of policy.
10th. To refuse to criticize fellow teachers or predecessors in the presence of pupils or patrons, or to bear tales from one teacher to another or to the administration about another teacher, unless the best interest and well-being of the school demands such action.
11th. To consider it unprofessional to interfere in any way in matters of discipline between another teacher and pupil.
12th. To refuse to underbid a rival applicant in order to secure a position, and to refuse to apply for a position until a vacancy has been announced.
13th. To be willing at all times to encourage and to help another teacher by giving information or counsel so long as in so doing it does not become detrimental to myself or interfere with my obligations to those I teach.
14th. To organize properly and leave for my successors such information, data, and records as may be needed in beginning the next year's work.
15th. To regard myself, when elected to a position, as the permanent incumbent until due and proper notice is given by the board of its intention to replace me at the end of the session or until notice is given by me of a desire to resign.
16th. To refrain from "talking shop" in the presence of strangers or those not engaged in the profession.
17th. To give a full measure of service both inside and outside the classroom without reservations or limitations because of salary.
18th. To regard it as unprofessional to sign a yearly contract to teach for a wage insufficient to cover legitimate expenses for 12 months.
19th. To regard my contract as sacred, and not to resign without the consent of the board unless the contract provides for an automatic release upon proper notice.
20th. Finally, to so order my personal conduct that no reproach can come upon my profession, but rather that my educational leadership may help to mold an efficient, honest, and patriotic American citizenship.

11,042 Visitors Are Registered at the Museum Building

Two months ago today the Museum of the Panhandle-Plains Historical Society was dedicated and opened to the public, and today the register shows that 11,042 people have visited the building.

Professor L. F. Sheffy and his assistants say that there are some visitors who fail to register so the total number is probably considerably larger than the records show. Visitors are of all ages, ranging from little children who come with their parents or teachers to old men and women who see objects which take them back to the days of youth and pioneering.

Many visitors return time after time, watching with keen interest for the new objects which appear each week in the display cases. The art exhibits which are changed frequently bring some people who find this the most delightful feature of the museum.

Other people who are passing through the town or the Panhandle hear of the Museum, or are attracted by the beauty of the building and stop for a brief inspection of the things within. Already such visitors from practically every state of the Union, from Hawaii and Canada have registered.

College students are constantly using the materials of the Museum in connection with their studies of history, literature and even of agriculture and home economics, for here are to be seen the tools of years gone by. Teachers who are in Canyon for the summer are already planning to bring their pupils to the Museum next year, knowing that through it they can teach history far better than just through text books.

To the stream of people who enter the beautifully decorated metal doors each Sunday, Tuesday and Thursday the Panhandle-Plains Historical Museum is giving added appreciation of the region of which it is a part.

Mrs. Elizabeth Stewart visited friends in Dallas last week. She made the trip with Mrs. N. E. McIntire who was enroute to the home of her daughter, Mrs. Pat Whittington, in Longview, for a week's visit.

Those who have cars are requested to take with them as many of those who do not have cars as possible, in order that the fun may be enjoyed by all who wish to go.

Tickets will be on sale in the corridors or may be secured from John Plaster or Bruce Cleland.

The annual Summer Reception will be held at Cousins Hall Saturday night at eight-fifteen. All students are invited. All faculty members will be present and are looking forward to this opportunity of meeting the students on other than a classroom basis.

Baxter Collection at Museum Is Increased by Relics

The Panhandle-Plains Historical Society Museum this week received a large addition to the Baxter collection, which now occupies 10 cases and much wall space in the building. This time Mr. and Mrs. Baxter added to the pottery cases many specimens of Pueblo pottery found in graves and houses in northern New Mexico and Southern Colorado.

An especially interesting piece has a handle designed in the shape of a deer's head. Most of the pottery is decorated in lightning design, this being a favorite of the period represented. In this pottery group are three large bowls and two pitchers of red pottery, which according to Mr. Baxter, was the most prized of ancient pottery.

Another group consists of basket weave pottery, which was made by pressing the clay into a basket and allowing it to harden. On the bottom of the bowls appear tiny bits of straw which pulled off the baskets when the pieces were removed. With these are placed two stones which were used for smoothing the clay when the utensils were being made.

The caribou head which was added to the Baxter collection of mounted specimens is a very fine one. Mr. Baxter called attention to the fact that the caribou is essentially a plains country animal, the angle at which its horns are set, making it impossible for it to go through trees and underbrush with the ease of such other members of its family as the elk.

A set of longhorns, over eight feet in length is a part of the same collection. Mr. Baxter stated that these horns were taken from a steer killed more than a hundred years ago; he hopes, finally to secure a long horn steer on which the horns may be mounted, thus giving those who will never see a genuine Texas longhorn a true picture of the animals from which present day Texas cattle have been developed.

Mr. and Mrs. Baxter, who live at Dimmitt, expect to continue to add to their collection, which is the largest and most varied in the Canyon Museum.

Bill of Sale For Slave Will Be Placed in Museum

Pampa Daily News: Documentary evidence of the sale of negro slaves in Texas has been given T. D. Hobart, longtime official of the Panhandle-Plains Historical Society, by George Berry.

Mortgages written in longhand tell of the "sale at public outcry" before the Rusk county courthouse of a negro woman named Pat, 25 years old, and "all her future increase" for \$980. The date was April 7, 1857.

Another document reads as follows in another transaction: "Rusk

county, Texas, May 15, A. D. 1858 —Received of Henry Berry twenty three hundred and fifty-four and 48-100, it being in full payment for two negroes, one a boy named John at twelve hundred and twenty-four and 48-00 dollars, aged between nineteen and twenty years, and Molly a girl of 17 years at eleven hundred and thirty dollars, which negroes I warrant to be sound in body and in mind and slaves for life. J. K. JOHNSTON."

These slaves, however, were freed after the civil war which shortly followed the sales. The documents are chiefly of value because they are original copies and in a good state of preservation. Mr. Hobart will place in the historical museum at Canyon.

Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept but separately counted, and unless there is a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision intended to or inconsistent with the sovereign and established public policies of this State, and no provision having such vice shall have validity against the State. No Charter provision may operate to impair the exemption of homesteads as established by this Constitution and the Statutes relating thereto.

(3). A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or may provide for a governing body otherwise constituted, which shall be elected and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of provisions hereunder, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justice of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this constitution, and the duties of the Judges thereof, may be confined to that general jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"c. Save as hereinbefore and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish an office or department, whether created by other provisions of the Constitution or by statute, define the duties thereof, fix the compensation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save that no such Charter shall hereinafter be authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be fixed by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption

HEY, MAN—WE'VE HAD COMPANY WHILE WE WERE UP TO THE VILLAGE AND IT MUST HAVE BEEN YOUR COUSIN CHARLIE AND HIS GANG—HE ALWAYS PILES UP HIS PLATE WITH POTATO SALAD AND THEN HE STARTS TALKING AND NEVER EATS ANYTHING!

of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real and personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(4). Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the general Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In case of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(5). Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified service, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards therefor be not lower than those fixed by the General Laws of the State.

"(6). a. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature, such a

proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified voters cast within the yielding defined governmental entity, and a majority of the qualified voters cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be provided by law to control such appropriate governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"b. In cases of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such city and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized, and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"d. Areas urban in character though not incorporated under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions, to create, alter, administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(7). No provision of this Con-

stitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent with) which may be necessary to carry out the intent and purpose hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

Faculty of W. T. Passes Resolution Praising S. D. Burton

The following resolution was passed Saturday at the meeting of the faculty of the West Texas State Teachers College:

Whereas, our community, college, and faculty group have sustained a great loss in the death of Coach Sam D. Burton, and

Whereas, during his twelve years of activity in our midst, his honesty of purpose; his fair dealings with all of his associates; his courageous stand for the right under all conditions—whether with the popular group or alone; and his sympathetic understanding and patience with the development of the latent abilities of young men under his supervision are contributions of lasting value to the college and the community, and

Whereas, Sam D. Burton was an exponent of many of the finer qualities that make for happier and more complete living as exemplified in his appreciation of his home and his family and in his respect for the cultural and artistic values of life;

Therefore, be it resolved that, as a group, we recognize the fact that we have experienced a great loss in the death of our friend and co-worker, and we express our deepest sympathy to his family in their bereavement, and that a copy of these resolutions be sent to the family, a copy be recorded in the minutes of the faculty, and a copy be sent to the Press for publication.

"It saved his life," the doctor said

A Texas farmer was chopping wood one morning. The ax glanced off a hickory log and deeply gashed his foot.

His wife telephoned the doctor—"Come as fast as you can!"

"Tie a cord tightly around his leg below the knee. I'll be there at once," a voice flashed back along the wires.

Later, the doctor said: "Those brief directions by telephone saved that man's life. Even then, he was very weak when I arrived."

Entertainment at W. T.

A full program of entertainment and recreation is possible during the summer here, and arrangements have been made for students of all tastes to have all the good times their work will allow.

Recently President J. A. Hill asked a committee, composed of Mr. Cook, Mrs. Green, Miss Cross, Mr. Jones, Mr. Condon, Mr. Shaw, Mrs. Reeves and Mr. Clark from the faculty, and L. N. George from the Ex-students' association to plan a series of programs for the entire summer. The result of their work is a calendar of events ranging from book reviews to light nights.

Lecture numbers will be held at 7:30 on Tuesdays, and will be an hour in length, thus conserving electricity for the college, and leaving a long evening free for study for the students. Numbers, all of which are open to the public for a nominal charge of 25 cents each, and to students on their blanket tax tickets are as follows: June

20, Mr. C. W. Batchelder, an evening of reading; June 27, Mr. Wallace Clark, a lecture-recital; July 11, Miss Mary Morgan Brown, an evening of reading; July 18, Miss Ada Clark, soprano, assisted by Miss Frances Usery, pianist; July 25, Mr. Herschel Coffee, violinist, assisted by Miss Usery; August 1, a travel lecture, Miss Darthula Walker.

For those who like to dance, there will be college dances on June 24, July 8, and August 12. The physical education department for men is sponsoring two Fight Nights, July 12 and August 16. Mr. Jones will be in charge of these.

Two All-College Play Nights, under the lights on Buffalo Field, will bring students and faculty and friends together twice during the summer, on June 21, and July 26.

Friday lectures, sponsored by the English department, will come at 9:30 each Friday, and will be open to all who wish to attend. Room 17 of the Administration Building will be used for these so long as it is large enough. Mrs. Green will begin this series Friday, June 23. Professor S. H. Condon will review Glenn Frank's "Thunder and Dawn"; July 30, Mrs. T. V. Reeves will review Lewis Browne's "Blessed Spinoza" and Dr. B. F. Frona-

barger will follow on July 7 with a lecture, "Magazine Life."

The Y. W. C. A. meets regularly on Wednesday at 7:15 on the lawn in front of the Administration Building. Open to all College women and their friends.

The Wranglers meet regularly on Tuesday at 5:00 p. m. in the Scout Room of the Education Building. Membership limited. Girls interested see Mr. Baker, Mr. Shirley, or Mrs. Green.

The Palo Duro Outing Club is open to everybody, and everybody who goes does as he pleases. It meets regularly Friday afternoon at 4:30 at the east end of the Administration Building and from there goes on a planned outing. Bruce Cleland, Johnnie Plaster, Dr. Barnett and Professor Condon will give prospective members information about it. The membership fee of 50 cents takes care of the entrance to the place of outing for the entire first summer term. Students, ex-students and faculty may get membership tickets.

A stag weiner roast for every man in college and all faculty men will be the outstanding event for July 1. Professor T. M. Moore and Dr. C. A. Pierle will promote this. It is one of the big events of the summer.

In addition to all these events

there will be many short excursions open to students who happen to be interested in them, and it is possible that a huge excursion to Carlsbad Cavern will take place. Dr. Harris M. Cook and Mr. Travis Shaw are making negotiations for this trip. Many small student parties are making week-end trips. Persons who wish to make such trips may sometimes be helped to make satisfactory, economical arrangements for them by seeing Mrs. Green or Mrs. Reeves.

Altogether it is believed that College students will have a better time than ever before this year, in spite of the fact that they have less money to spend than usual. The college program is always greatly supplemented by the recreation programs of the Canyon churches which lend their facilities and the time of the members to making the sojourn of students in Canyon a happy one.

Work Carried

(Continued from first page)
or more public programs this summer.

The assembly hour for the pupils is this summer in charge of Ben Guill, a senior Speech student. The meeting comes each Wednesday and Friday, and the

programs are entertaining and help the pupils to get acquainted with each other's accomplishments.

An experiment which proved very successful under Miss Mary Louise Anderson is being continued this summer by Eleanor Pierle, a senior student. Twice each week she meets with English classes to teach them how to use the library. Her help not only makes their daily work much easier, but it also prepares them to use the college library when they become students in the more advanced school. Through this work they get to know reference books and how to use them, the arrangement of materials in a library, magazines and their uses and become acquainted with the world of books in a way impossible without someone to introduce them.

The usual conferences between college students who are doing practice teaching and observation are being held this summer, and the sections are reported to be usually large.

Mrs. F. E. Savage is visiting at the home of her sister in Oklahoma.

Mrs. Elizabeth Fry Page and Mrs. Geraldine Green attended the Episcopal Convocation at Lubbock Thursday afternoon and evening, returning after the night program.
